

California Community Colleges are now offering Associate Degrees for Transfer (ADT's) to the CSU. These may include Associate in Arts (AA-T) or Associate in Science (AS-T) degrees. These degrees are designed to provide a clear pathway to a CSU major and baccalaureate degree. California Community College students who are awarded an AA-T or AS-T degree are guaranteed admission with junior standing somewhere in the CSU system and given priority admission consideration to their local CSU campus or to a program that is deemed similar to their community college major. This priority does not guarantee admission to specific majors or campuses. Students who have been awarded an AA-T or AS-T are able to complete their remaining requirements for the 120-unit baccalaureate degree within 60 semester or 90 quarter units. To view the most current list of Riverside City College Associate Degrees for Transfer and to find out which CSU campuses accept each degree, please go to: [www.calstate.edu/transfer/adt-search/search.shtml](http://www.calstate.edu/transfer/adt-search/search.shtml). Students are encouraged to meet with a Riverside City College counselor to review their options for transfer and to develop an educational plan that best meets their goals and needs.

**2023-2024**  
**ECONOMICS**  
**(CSUGE) AA756**  
**(IGETC) AA757**

**Associate in Arts in Economics for Transfer Degree**

The Associate in Arts in Economics for Transfer degree is a curricular pattern designed specifically to transfer students as Economics majors with junior status to the CSU system. Though the Associate in Arts in Economics for Transfer also provides broad general preparation for Economics majors entering any four-year university, students must consult the specific requirements of any non-CSU campus to which they are applying. Students earning the Associate in Arts in Economics for Transfer will be provided with a deep appreciation of how the economy functions.

**Program Learning Outcomes**

Upon successful completion of this program, student should be able to:

- Describe, analyze, and evaluate economic concepts, paradigms, and theories of the economy.
- Analyze data to identify major current economic problems and use economic theory to analyze and evaluate the problems.
- Identify current governmental policies to remedy economics problems and assess the effectiveness of these policies.

Required Courses (20-21 units)	Units
ECO-7*/7H* Public of Macroeconomics/Honors	3
